

GRANDTYME

Issue #5 – August 2008

Feature Project

"Mike" took advantage of finishing the basement in his home to add a dedicated theater room. His design, plan and execution was great. We assisted with the electronics, projector and screen, star ceiling package, installation services, seating risers and remote control programming. We built an acoustically transparent screen and installed the front speakers behind the screen as is done in theaters. Mike and his family now have a great room to enjoy movies and TV.

Project Ideas

Take advantage of the great outdoors by expanding your sound system outside. Call us to find out more about adding outdoor speakers to your deck, patio, pool or garden.

Product Updates

With great excitement, **Epson is now shipping their Ensemble product.** It is a fully integrated front projector and sound system. With images by Epson and sound by Atlantic Technology - the performance is awesome!! The front speakers are integrated into the screen and the rear surrounds are located within the projector housing for a clean, neat install. It includes an AV controller with DVD player, subwoofer and remote control - it doesn't get easier than this to have a stunning A/V system in your home. Give us a call or check it out at <http://www.ensemblehd.com>

We are now **Qwest, DishNetwork and DirecTV affiliates.** We offer the same pricing and bundles as other suppliers - but we work with a local Master Dealer to make sure the job is done right. If you need these services - give us a call. Don't take a chance with the installer you get by calling Dish or DirecTV directly.

Stealth Acoustics totally invisible speakers ROCK!! These speakers install in walls and ceilings like a piece of sheetrock. You can paint or paper over them to hide them from sight and they sound great!!! They are available in LCR and even sub-woofer versions.

Showroom Hours

Mon - Sat 9AM to 1PM Or we are more than happy to meet you at your convenience!!!
